Daily Nevada State Journal.

WORKING UPON THEIR FEARS.

The JOURNAL is reliably informed that most, if not all of the Central Pacific Railroad Directors are favorable to the calling of a Constitutional Convention in Nevada. It is furthermore informed, however, that an effort is being made in a certain quarter to frighten them away from their present position by gross misrepresentations and ridiculous bug bears, the principal one being the danger of the Convention falling under the control of a communistic element which would frame an insupportable destructive to the corporation interests in the State. The railroad people will make a previous, and to them, most costly mistake if they allow themselves to be influenced by the shallow arguments, nonsensical predictions and elaborate misrepresentations of a few designing politicians and lobbyists whose occupations would go with such governmental retrenchment, and legislative simplifications as are impossible under our present obstructive and most complicated organic law. The railroad company is the largest taxpayer in the State, and consequently more interested proportionately than any other corporation or individual, in such reduction of governmental expenses as will result in a lower rate of assessment for State, county and municipal purposes. One thing is as certain as fate. If the high-pressure system is continued, the railroad companies will have to bear a much larger proportion of the tax burden than they do at the present time. It will be necessary, to carry on the government, to assess such property up to its actual intrinsic valuation, or as near it as other classes of property are taxed—a thing which has never yet been done and which there is no disposition to do, if it can be avoided with anything like the semblance of justice to other taxpayers, or to prevent the State from falling into utter bankruptcy and financial ruin. The Central Pacific Company, ten years ago, paid in State and county taxes, \$101,000 in Nevada. This year it will pay in round numbers, \$150,000, and it will continue to increase, under our present expenses, until the annual total is twice or perhaps thrice that amount.

The "irreducible" school fund can no longer be preyed upon, and the government will have to rely exclusively upon the revenue resources of the State for its support. To effect this will, under our present Constitution, at least double the present rate of levy or valuation will be unavoidable, and the greatest portion of the additional burden will fall upon the railroad companies and other corporation property holders in the State. There is no disposition to "clinch" the railroad companies or any other class of property or individuals, or to formulate a Constitution less favorable to corporation interests than the present one. The sole aim is to remove such present constitutional obstructions to economic reform as is necessary for the maintenance of our Statehood and to avert such excessive taxation as will be ruinous to every business and industrial interest in the State. The people are thoroughly awakened to a sense of the situation and to the necessity for prompt and efficient action. There is not the shadow of doubt but the Convention, if called, will be composed of the best class of our citizens, and those best qualified to intelligently perform the important duty devolving upon them. There is no more danger of a communistic assembly in this connection, than that the people of W. Shaw county will elect four tramps to represent them in the Senate and had Assembly next Winter. The Central Pacific railroad people, if they are wise, will encourage to the extent of their power the Convention proposition, and they will be extremely foolish and will stand in their own light if they allow themselves to be misled by false representations of persons whose interests are not identified with the prosperity of the State, but who thrive and fattened upon the very evils and calamities which the law-paying and industrial classes desire to remove.

ALL HONOR TO THEM.

To Senator Jones is, says the Hawthorne Bulletin, due the honor and credit of the passage of the silver bill more than to any other one man, and while wedded to free silver he consented to temporarily yield his demand, by the acceptance of the next thing. The bill does not stand in the way of free coinage, but thus far has had the effect of refuting the assertions of the gold men and demonstrating the truth of the arguments of the Nevada Senators and number of Congress. As the proof of the pudding is in eating it, so also has the truth of the arguments of the advocates of silver been shown by the actual state of the silver and agricultural market. As goes silver, so goes the price of produce. The gratitude of the people, goldites excepted, goes out to Nevada's Senators and Congressmen in greater measure than to all others, while Nevada's exclaim, "Well done, thou good and faithful servants."

Within a few days R. K. Colcord has concluded to withdraw from the gubernatorial fight. Many of his friends are endeavoring to induce him to stand in for Senator from Esmeralda.—Carson Tribune.

The JOURNAL a few days ago published the same item, for which it was bonned by the Tribune for making an unauthorized statement. Perhaps in time the Carson paper will learn that the JOURNAL is the most reliable newspaper in the State in relation to political news.

Struck and Burned by Lightning.

Living in the southern part of Columbia county, at a small place called Fly City, resides the family of John Vosburgh. Thursday night Mr. and Mrs. Vosburgh, with their 4-year-old child, retired at 9 o'clock. An infant occupied the crib near the bed. This is the last they remember until more than an hour after ward, when upon returning to consciousness it was seen that the child had slipped at five minutes past 9, and it is assumed that electricity entered the dwelling at that time.

Mr. Vosburgh first became conscious and endeavored to get up, but was unable to do so. In a few minutes he tried again and took hold of the child, finding it apparently lifeless. In the meantime Mrs. Vosburgh had partly recovered, and finding the room in a stifling condition, crawled to the window and opened it, and then returned to her husband and child. Mr. Vosburgh gained sufficient strength to assist, and they carried the child into the open air and brought it to consciousness. Neighbors were called, and by that time Mrs. Vosburgh had become exhausted.

Mr. Vosburgh's night shirt was torn entirely down the back. The bed was wrecked. A large hole was burned in a feather bed, one of the bolts in the bedstead had disappeared and has not been found. The child has a sore on the arm extending from the wrist to the elbow, having the appearance of being burned, with a festering sore in the center. A hairpin holding Mrs. Vosburgh's hair has the appearance of being melted. The infant in the crib was not disturbed in any manner. There is no other evidence of the appearance of electricity in any part of the house.

It is a case that baffles all theories, and the work that did it is as unusual as it is mysterious. The father and child have practically recovered, but the mother is still prostrated.—Hudson (N. Y.) Register.

Sam Jones Makes a Thousand Converts.

The greatest meeting that has ever been held in Richmond, and probably in the country, was the one conducted by the Rev. Sam Jones. It was for men only.

The Tabernacle seats 11,000 persons. Every seat was taken, and not less than 1,000 stood up. On the outside of the structure were probably 1,000 more, and hundreds went away when they found they could not get seats. Not less than 14,000 or 15,000 men came to hear the preacher.

The sermon had a powerful effect upon the congregation. At its close Mr. Jones asked all who would promise to live better lives and give up sinful habits to stand up. Not less than 10,000 men arose. It was a sight never seen here.

The preacher then asked all who were not church members and who wanted to become Christians to come up and shake his hand. Hundreds pressed forward with tears in their eyes. Not nearly all could get to the preacher, as the crowd was so dense. It is estimated that not less than 1,000 persons were converted, among them many solid and substantial business men. Some of them were people who had not before heard Mr. Jones, and who had ridiculed his style of preaching.—Cor. Norfolk Virginian.

Gold Lace and Fiddlesticks.

Emperor William has issued new regulations respecting the wearing of German naval uniforms which are so minute and elaborate that they fill a book of forty pages. Any admiral who marries is in future to go through the ceremony arrayed in his full uniform. Admirals are only to wear plain clothes at the seaside or at baths, when out shooting, at masked balls, or when on half pay. If they happen to be in Berlin on a Sunday the cocked hat must be worn when walking about the city till 4 o'clock in the afternoon. When an admiral is at sea he may wear an oilskin suit and coat only if the weather is stormy, and his shirt front must always be perfectly plain. It is further strictly forbidden to have the corners of the collar turned down or doubled back, and there are peremptory rules about gold lace and other fiddle faddle appendages.—London Truth.

An Old Soldier.

A conspicuous figure in the procession at the unveiling of the Lee monument, at Richmond, was the venerable Professor F. N. Crouch, the composer of "Kathleen Mavourneen." He is perhaps nearer 90 than 80 years of age, fat hale and hearty. He was arrayed in full uniform of Confederate gray, having come on from Baltimore to meet probably for the last time his soldier comrades of the old First Howitzers. His comrades say that no braver soldier ever fought with the artillery of the army of northern Virginia.—Exchange.

While exercising a horse at Fort Collins, Colo., the animal became enraged and attempted to bite its leader. The trainer succeeded in preventing the furious beast from injuring him until the halter broke, when the animal picked him up by the shoulder and threw him to the ground with great violence. Then burying his teeth in the flesh of the prostrate man the brute trampled upon him. The trainer's chest was crushed, three ribs were broken and the head on all parts of his body was bruised and crushed.

The present year is the tercentenary of the discovery of the microscope, which in its crude form was due to Janzen, a spectacle maker of Middleburg, Holland. The occasion is to be celebrated by an international microscope exhibition, which is to be shortly held at Antwerp, when an endeavor will be made to bring together a collection of instruments which will fairly show the progress of the microscope from its simple original form to that of the present day.

Hiram Lukens went to work on "The Doylestown (Pa.) Intelligencer" in June, 1882, as printer's devil and has been continuously employed on that paper ever since, celebrating his fifty-eighth anniversary in the office on June 21. He is a compositor and works every day at his trade.

A Memorable Day.

The trouble came just with the end of the racket. One fourth of July, as you'll presently learn. That was a lopped finger, not torn nor spoiled. I escaped from all harm—save a very slight burn. But papa had provided a new silver banner. Which, graced in the evening breeze, far out of reach. And our guests were discoursing in happiest manner. When to some one called upon me for a speech. Oh, never did heart beat so fast as that night. For I would far rather have faced a disaster than make an oration quite so important. How should I begin? With my hands in my pockets. My thoughts seemed to take a precipitous flight. I but knew that above me the arrowy rockets. Left beautiful arches of jewel like light. The words "Fellow citizens" loomed up suggestively. And I managed the form to repeat. And then from sheer fright at my voice I grew restless. And felt I must suffer the shame of defeat.

At last in the kitchen I heard ice-shaking. And instantly roused from discomfited dream. To say, midst applause—for the motion proved taking—"I move that the speeches come after the cream."

—Jane Ellis Joy in St. Nicholas.

The Telephone in Washington. Mr. Blaine's experience with the telephone has made the life of one of the employes of the state department a hollow mockery for more than a week. He lives in constant terror of the wrath to come. Mr. Blaine, it appears, was anxious to communicate with the department from a distant part of the city. He therefore called up his office over the telephone wire. Owing to some electrical defect, due doubtless to the weather, he was unable to make himself thoroughly understood. As not infrequently happens, he could hear with perfect distinctness all that the man at the other end of the wire was saying, while the clerk struggled vainly to distinguish a single syllable of what the secretary was trying to pour into his ear. Finally the clerk, annoyed by the trouble and delay, said in an angry tone:

"Well, who are you, anyhow?" Perhaps Mr. Blaine spoke with more emphasis or with greater attention to articulation when he replied. Whatever the cause, the first intelligible words which found their way to the ear of the angry clerk were those which said in reply to his question:

"My name is Blaine, and I happen to be the secretary of state."

The shock which the clerk experienced was severe, but it was nothing to the lingering agony of doubt which followed it, and which even now is harassing his anxious mind. Mr. Blaine has shown no disposition to resent the unintentional familiarity, and the incident will probably drop into oblivion in a week or two.—Cor. New York Tribune.

A Strange and Fatal Disease.

R. M. Grant, of New York, has just completed a trip through Central America. He states that a new and strange disease is creating alarm in the southern countries.

"This disease," he said, "is more fatal than yellow fever. It is called the black fever in some countries, and it will do more injury to a person in one day than would yellow fever in two weeks. It has played havoc in Honduras and in the southern part of Central America. A hospital which has just been erected near the proposed line of the Nicaragua canal has some 200 victims. One half of them will probably die. The black fever comes almost as suddenly as a stroke of lightning and there is no relief. If you attempted to get out of the country you would not survive and you must remain quiet and take your chances. The first symptoms are burning sensations and before you have been afflicted two hours you feel as if you were being roasted alive at the stake. Unless the black fever disappears from that country or a cure is found for it the loss of life will be appalling."—Chicago Tribune.

Helping the Miners' Widows.

Farmer Morgan, of Kansas, when he heard of the Ashly mine disaster in Pennsylvania, where twenty-eight miners lost their lives, wrote to the relief committee offering to marry any one of the widows, providing she did not have more than three children, the committee to make the selection for him. He said he was a bachelor of good habits, with a pretty farm that was paid for. The committee had the proposition before the widows, and it was found that nine of them were willing to become Mrs. Morgan, whereupon their photographs were forwarded to the Kansas philanthropist, and he will choose for himself.—Exchange.

Poisoned from a Chicken.

A singular case of blood poisoning is reported from Nyack, N. Y. Ambrose Collis, a young man well known there, lost a favorite chicken, and being anxious to know the cause of the fowl's death he proceeded to dissect it. While cutting the chicken his knife slipped and wounded the hand of his wife, who was assisting him. The woman's hand soon after began swelling, as did also her entire arm and face, and soon she was in a terrible condition. Medical aid was called, and Mrs. Collis is considered out of danger.—Philadelphia Ledger.

The first annual dinner of the London Thirteen club was held at Anderson's hotel, the present headquarters of the club. The dinner was three times thirteen minutes late, to enter the dining room it was necessary to pass under a ladder, the knives and forks were all carefully crossed, there were six tables, each with thirteen diners, and—quite by accident, curiously enough—the number of ladies present was just thirteen. Despite all these numerically malignant influences a very enjoyable evening was spent.

Citizen Train, now a citizen of one of Tacoma's suburbs, proposes to organize a company of 800 American editors and take them around the world in fifty days next fall, at \$500 per head. As the champion globe trotter the citizen thinks that he can outdo the best of globe trotters.

White Pine Whittlings.

News, July 25: There is just now a potato famine in Ely—many families being without that staple table article for several weeks.

E. Shephardson, of Hamilton, has commenced suit in the District Court against the Sweetwater Company for \$2,500 due him for wages as watchman.

Sam Paul has made a very important discovery near the summit of White Pine mountain lately. The ore goes 100 ounces in silver and 60 per cent. The vein is large and promises to develop into a big mine.

Rev. Mr. Houghton, of Reno Episcopal Church, preached to a large audience at the Court House Thursday night. Though quite a young man, he is a fluent and pleasant speaker. He departed on yesterday morning's stage for Pioche.

Newspaper Advertising.

"I never in my life," says John Wanamaker, of Philadelphia, "used such a thing as a dodger, a poster or a handbill. My plan, for fifteen years has been to fill up with what I wanted. I would not give an advertisement in a newspaper of 400 circulation for 5,000 dodgers or posters."

The Illinois Legislature met in extra session to legislate for the Fair. The business went forward with genuine Western vim. Within half an hour after meeting the House had elected a Speaker and he had been called a liar from the floor, and replied that he would lick the offensive member just as soon as he got the committee appointed.

There is no point in the strictures of the Eureka Sentinel's Washington correspondent because Land Agent Frohman is spending the Summer at Reno. He is entitled to a reasonable vacation, for during his incumbency of the office he has done better work for the State than any Land Agent it ever had.

BREVITIES.

August is here again.
Read notice of gold pin lost.
The Verdi Mill Co. is running its box factory night and day.

The Carson Mint adjusters have been given a holiday until next Monday.

The 10th inst. is the date for holding the Republican primaries in this county.

Dr. Meigs of Elko passed through here on his way to San Francisco Wednesday night.

Jake Olovich of Carson has gone to Seattle to work in the store of his uncle in that city.

Jim Rule came down from the Comstock last night and went on to San Francisco.

Go to Lange & Schmitt for garden hose, garden tools, and agate ware. Largest stock in the city.

M. H. De Young and wife and Lloyd Tevis passed through westward bound Wednesday night.

In addition to the usual attractions there will be a military parade and wild horse riding at the State Fair.

The steam wagons are running between Verdi and Sierra Valley, hauling in lots of lumber for the Verdi Mill Co.

The Agricultural Society has had men working at the race track for the last week and it is now in tip-top condition.

F. G. Newlands and family and a party of friends paid the Comstock a visit yesterday via the Geiger grade driveway.

It is expected that the Supreme Court will render a decision in the Constitutional Amendment case during the present week.

The Truckee was highly charged with sawdust yesterday. Of course nobody is dumping the stuff into the river, but like the bed-bug, it gets there just the same.

The W. C. T. U. ladies will serve ice cream to-morrow afternoon and evening at their rooms under the Opera House. See notice.

There was considerable improvement in Charles Stevenson's condition yesterday and his physicians are hopeful of his recovery.

Bar silver 111, the highest notch it has yet reached, but she will continue to climb until she perches on the par beam—and don't you forget it.

Yesterday afternoon Opbir was 5½, Potato 7, Corn 4, Chollar 3 40, Savage 3 95, Sierra Nevada 3 15, Crown Point 2 80, Belcher 3 20.

Yesterday morning's eastward bound express train was very light, the Pullman car porters comprising a majority of the occupants of the sleepers.

Tourist travel at Lake Tahoe is increasing. The Grand Central at Tahoe City, Bellevue, Mrs. Kirby's at Emerald Bay, and Tallac are nearly full.

The son of Judge Sawyer, who attempted to kill a man recently in San Francisco, is now a free man. Just as everybody expected, when he made the assault.

Judge Coffey yesterday decided the celebrated Blythe will contest, involving property valued at about \$4,000,000, in favor of Florence Blythe, the illegitimate child.

The Southern Pacific Company has contracted for seventeen million feet of lumber of this season's cut, and the sawmills on the Truckee have a prosperous run ahead.

Homer Index: We don't like the sound of that word "limited;" we have heard too much of it during the past two years. It is suggestive of limited resources and unlimited check.

The river has gone down the past week and the various ditch companies are building wing dams out from the heads of the ditches, so that a full complement of water can be obtained.

The Appeal is right when it says that the faking up of a lot of imaginary fires by the Daily Report is beneath the dignity of a city newspaper, and smacks largely of kindergarten journalism.

The Chronicle makes a great blow about a five-leaf stalk of clover that was found on a lawn in Virginia City. They are as plentiful in Reno as house flies, and stalks with six and even seven leaves are not uncommon in this vicinity.

The Ouledonia Club will give a picnic at Treadway's Park at Carson on Saturday, the 9th instant. There will be an unusual variety of attractions, and it is the determination of the committee and club members to make it the affair of the season.

Fish Commissioner Mills has received a letter from the California Fish Commissioners notifying him that a deputy would leave for the Truckee river points, to investigate the complaints made of parties dumping sawdust into the river, yesterday.

If you will drink, take nothing but the best quality of liquors and of such is the stock of H. J. Thyes. Any article in that line which you may procure at his place will be first-class, for he keeps no inferior brands. See his ad. in this issue of the JOURNAL.

It is said that D. O. Mills and John P. Jones have made extensive purchases of mining properties in the Death Valley region, and that they will in the near future inaugurate operations on a stupendous scale, the grandest ever before attempted on this coast if not in the world.

ON THE HUNT.

Surveying Parties Scouring the Hills for Water and Land.

Mr. Newlands is doing a good work in this section in pursuance of his idea to bring the water and land together, and provide farms for those who may come to Nevada to live. He has had T. K. Stewart and party running all over the face of the earth between Wadsworth and Reno, for a ditch taken out on the Truckee twenty miles this side of Wadsworth would irrigate thousands of acres of land south of Wadsworth.

At present Mr. Newlands has the Stewart surveying party running the lines for a canal that would take the water from the Little Truckee, carry it through Dog Valley, around Peavine mountain, across Lemmon's Valley, and on to Warm Springs Valley, near Pyramid Lake, which is one of the best irrigation schemes in the country. If Mr. Newlands puts it through he will be a public benefactor.

The Evans ditch survey is being pushed, and the JOURNAL hopes that five hundred men will soon be placed at work. This ditch, as outlined, will be eighty feet higher than the Highland ditch, and will cover land in Prosser and Spanish Springs Valley that cannot be reached by the Highland ditch.

The survey for the extension of the Highland ditch from Reno through Prosser and into Spanish Springs Valley has been completed, and the Reno Water, Land and Light Co. is making all arrangements to push that work through, and to put the water on 6,000 acres of land of which it is the owner.

With these three great ditch projects carried out Reno ought to double in population within a very short time.

A SAD ACCIDENT.

A Little Boy Drowned in the English Ditch.

A most melancholy accident occurred about noon yesterday, resulting in the drowning of Eddie, the three-year-old son of E. J. Gallagher, who lives near the corner of Sierra and Sixth streets. The little fellow, when last seen alive by his mother, was sitting on the back steps, about twenty minutes before he was missed. Upon missing the child, the mother immediately notified the father, who hurried down the English mill ditch which runs near the rear of the house, and near the premises of New Evans, the baby was discovered. All attempts at resuscitation were unavailing; the vital spark was extinguished and the body of the little one was taken back to the grief-stricken home of the afflicted parents and brothers and sisters. It is supposed that the child, after being left on the stoop by his mother, went to the ditch to play, and stumbled in. The water, while not deep, is very rapid and the current doubtless swept him away before he could utter a cry that could be heard at the house. It was the saddest accident that has occurred for many a day in Reno, and the afflicted family have the heart-felt sympathy of the entire community in their bereavement.

Humboldt Happenings.

Silver State, July 30th.

Contracts have been let for surveying the reservations at Fort McDermitt in this county and Fort Hall in Elko county. As the Government seems to have no further use for those reservations, they ought to be thrown open for settlement.

The funeral of John O. Twiss took place this morning from the family residence. The services were conducted by Rev. Mr. VanDeventer. The interment was in the Odd Fellows' cemetery, the deceased having been a member of that order many years ago.

A San Francisco company is about to purchase the gypsum deposit lying about four miles west of Lovelock, and if the purchase is made will commence shipping by the 20th of August, and calculate on handling 600 tons per month, there being mountains of the sulphate in sight.

Reports from Unionville as to the effect that the Arizona mine, which is being developed under the supervision of A. M. Wheeler, has every indication of being as rich on the south slope of the hill, where it is now being opened, as it was in the old works on the north side.

A squaw named Minnie, the wife of a Pute known as Jo Rouse, died last Sunday and left a two-months-old baby. Two old squaws, who had been attending the sick woman wanted to put the living child in the rocks with its dead mother. Doby John, a semi-civilized Indian, would not permit that and the child still lives and in all probability would live, if properly cared for.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines.

Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's.

Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name at home"—there is now more sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla.

Primary Election
 —Of the People on—
SATURDAY, AUGUST 16, 1890,
 For the purpose of electing delegates to the said
 State Convention the Primary Election to be car-
 ried out in compliance with the laws of the State
 and the instructions of this Committee.

The following test will be required of each and
 every voter at the said Primary Elections.
 "I am a citizen of this State and will support the
 nominees of the Republican party."

The following resolutions were unani-
 mously adopted:
 Resolved, That this committee reaffirms the State
 and National Republican platform of 1888, includ-
 ing the declaration that "the Republican party is
 in favor of the use of both gold and silver as
 money" and that "condemns all efforts to de-
 monetize silver."
 Resolved, That the persistent neglect of Secretary
 Windom to increase the coinage of silver to the
 maximum of four million dollars per month,
 coupled with his attempt to influence Congress-
 men to pass legislation to perpetuate silver demon-
 etization, is a shameful violation of the silver
 plank of the National Republican platform, an at-
 tack upon the rights and interests of the farmers,
 farmers and miners of the land, and an act of
 party perfidy that should call for his retirement
 from the councils of an Administration which is
 pledged to help and not to hinder the re-moneti-
 zation of silver.
 Resolved, That the Republican party of this State
 is in favor of free and unlimited coinage of both
 gold and silver, that it holds to this principle as a
 test of party faith and a test of party allegiance;
 that it will permit of no abandonment or modifica-
 tion of this doctrine; that let whoever will prove
 recalcitrant to the principle of bimetalism it will re-
 main steadfast thereto, and that it invites all
 voters in Nevada who favor the coinage of the il-
 legitimate unretained law of 1873 by which silver
 was demonetized, and who desire the establish-
 ment of free and unlimited coinage as the law of
 the United States of America, to join in electing
 delegates to a Republican State Convention.
